City of Chowchilla

Americans with Disabilities Act Transition Plan

DRAFT

Confidential Working Draft – 2020

Report Prepared by:

Sally Swanson Architects, Inc.
500 Sansome Street, Suite 410
San Francisco, CA 94111
Ian Blakey, Project Manager
Josh Klipp, Program Access Specialist

ACKNOWLEDGEMENT

Sally Swanson Architects, Inc. (SSA) would like to thank the City of Chowchilla staff that were very generous with their time and knowledge, without which, this project would not have been possible.

SECTION I: EXECUTIVE SUMMARY

INTRODUCTION: DEVELOPMENT OF ADA TRANSITION PLAN

The Americans with Disabilities Act (ADA) of 1990 provides comprehensive civil rights protections to qualified individuals with disabilities in the areas of employment, public accommodations, State and local government services, and telecommunications. A primary goal of the ADA is to ensure equal participation in public life for all Americans with disabilities. Title II of the Act covers programs, services and activities of public entities, such as the City of Chowchilla.

The ADA defines “disability” as:

a. a physical or mental impairment that substantially limits one or more major life activities;

b. having a record of such an impairment; or

c. being regarded as having such an impairment.

If an individual meets any one of these tests, they are considered to be an individual with a disability for purposes of the ADA.

Under Title II, a public entity may not deny the benefits of its programs, services, and/or activities to individuals with disabilities by maintaining inaccessible facilities, which house these programs, services and activities. The City's programs, services, and activities, when viewed in their entirety, must be made accessible to and usable by individuals with disabilities, except where to do so would result in a fundamental alteration in the nature of the program; result in undue financial and administrative burdens or threaten or destroy the historic significance of a historic property.

Section §35.150 requires that each program, service or activity conducted by a City, when viewed in its entirety, be readily accessible to and usable by individuals with disabilities. The regulation makes clear, however, that a City is not required to make each of its existing facilities accessible (§35.150(a)(1)). Unlike Title III of the ADA, which requires public accommodations to remove architectural barriers where such removal is "readily achievable," or to provide goods and services through alternative methods, where those methods are "readily achievable," Title II requires a City to make its programs accessible in all cases, except where to do so would result in a fundamental alteration in the nature of the program or in undue financial and administrative burdens. The US Congress intended the "undue burden" standard in Title II to be significantly higher than the "readily achievable" standard in Title III. Thus, although Title II may not require removal of barriers in some cases where removal would be required under Title III, the program access requirement of Title II

should enable individuals with disabilities to participate in and benefit from the programs, services or activities of cities in all but the most unusual cases.

To comply with the Title II requirements for accessibility to City *programs, services and activities*, this Transition Plan:

- Evaluates existing policies, procedures and practices as they pertain to the City's programs, services and activities;
- Provides findings and recommendations with regard to policies, procedures and practices;
- Identifies physical obstacles in the public entity's facilities that limit the accessibility of its programs or activities to individuals with disabilities;
- Assesses the extent of architectural barriers to program accessibility in the public rights-of-way and within the buildings, parks and other facilities operated by the City;
- Describes in detail the methods that will be used to make the facilities accessible;
- Estimates costs for mitigation solutions;
- Specifies the steps necessary to achieve compliance;
- Provides a schedule for barrier removal/mitigation;
- Sets priorities for barrier elimination; and
- Indicates the official responsible for implementation of the plan.

OVERVIEW: SELF-EVALUATION OF POLICIES, PROCEDURES AND PRACTICES

In addition to identifying and modifying physical barriers, Title 28 CFR Part 35, ***Non-Discrimination on the Basis of Disability in State and Local Government Services***, requires that a public entity evaluate its policies, procedures and practices. The following outlines the City's Self-Evaluation:

- Evaluate City policies, procedures, and practices as they pertain to its programs, services and activities; and make the necessary modifications to those policies and practices that do not meet the programmatic requirements of Title II of the ADA
- Provide an opportunity to interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the Self-Evaluation process by submitting comments
- Maintain, file and make available for public inspection a list of interested persons consulted, a description of areas examined, and any problems identified, and a description of any modifications made

It is recommended that the City periodically evaluate such policies, procedures and practices pertaining to communication, auxiliary aids and services, emergency response, publications, determination for undue burden, public activities, employment, and new construction of facilities, in addition to physical accessibility to City facilities.

It is also recommended that for program barrier mitigation, a detailed outline of administrative requirements and detailed requirements of needed policies be included. The policy outline would serve as a guideline upon which the City's future policies may be built.

An ADA Self-Evaluation Plan of City services, policies, and practices was completed in 2020. Please contact the City ADA Coordinator for further information regarding the "2020 City of Chowchilla ADA Self-Evaluation Plan".

OVERVIEW: ACCESS COMPLIANCE SURVEYS OF FACILITIES

The ADA Transition Plan is used to document physical accessibility barriers to the City's programs, services, and activities and to outline a schedule / plan (or the basis to produce one) for which the City shall follow to transition from a state of noncompliance to compliance.

The access compliance surveys of City owned and leased facilities fulfill a portion of the first two requirements of an ADA Transition Plan by identifying existing building conditions that deviate from current State and Federal standards for new construction and providing detailed description of proposed solutions for barrier mitigation. For each barrier, the surveys outline the code deviations and requirements from the Americans with Disabilities Act Accessibility Guidelines (ADAAG), ADA Standards for Accessible Design (ADAS) and the Accessibility Standards in the California Building Standards Code (CBC).

The access compliance surveys of City facilities cover approximately 9 owned and leased facilities maintained by the City. The surveys identified approximately 707 different accessibility related barriers within the City facilities and that the financial cost to mitigate all barriers identified in the surveys to be approximately $3 million.

Number of Facilities Surveyed	Number of Accessibility Barriers	Total Cost Estimated ($)
9	707	$3,120,792

The City facilities that were surveyed are shown in the table below:

Facility Number	**Facility Name**	**Address**	**City, State, Zip**
101	Senior Citizen Center	820 Robertson Blvd	Chowchilla, CA, 93610
102	County Social Services Department	125 S 2nd Street	Chowchilla, CA, 93610
103	Fire House	240 N 1st Street	Chowchilla, CA, 93610
104	Public Works/Corp Yard	360 N 1st Street	Chowchilla, CA, 93610
105	Police Department	122 Trinity Avenue	Chowchilla, CA, 93610
106	City Hall	130 S 2nd Street	Chowchilla, CA, 93610
107	RC Wisener Park	130 S 2nd Street	Chowchilla, CA, 93610

108	Veterans Memorial Park	600 W Robertson Blvd	Chowchilla, CA, 93610
19	Edward Ray Park	625 N 15th Street	Chowchilla, CA, 93610

Report Production

The following information contains the minimum data included in the Transition Plan – Access Compliance Survey Reports:

- Item number of barrier and/or room numbers, corresponding to schematic site and floor plans
- Area/location of the barrier; for example, room name or number
- Description of the barrier (as-built situation)
- As-is measurement/dimension
- Method of mitigation (e.g. physical alteration, purchase, program modification, equivalent facilitation, etc.)
- Detailed description of proposed solution and, if applicable, an alternative or interim solution
- Code citations, specifying the applicable sections in the State accessibility regulations, and in the Federal standards
- Severity of individual barriers (four levels: 1=severe, 2=moderate, 3=mild 4=minor)
- Unit and estimated unit price
- Total estimated cost for barrier removal
- Special site conditions (if applicable)

The information obtained from the surveys of the City facilities is maintained on a Microsoft Excel spreadsheet database.

Access Compliance Survey Reports are contained in Section II: Appendix.

SEE Appendix A: Access Compliance Survey Report of Facilities

Prioritization Criteria for Barrier Mitigation – Facilities

The third requirement of an ADA Transition Plan is to create a schedule that the City shall follow which addresses the order in which barriers shall be mitigated. This schedule shall be a public document and shall be made available for public inspection, maintained, and updated for the duration of the Transition Planning period. The maintaining and updating of this document shall mark the City's good-faith efforts in transitioning from a state of noncompliance to compliance regarding the ADA.

The difficulty and complexity of creating a schedule is recognized. Therefore, to provide a methodology for creating a schedule, a prioritization criterion was formed to rank barriers in order of most important to mitigate first to least important. The prioritization criteria rates each barrier based on two factors, its Priority Score, and its Severity Score. The Priority Score ranks the relative importance of addressing the barrier based on its locational impact on the disabled population, and the Severity Score ranks the barrier based on the degree of deviation exhibited compared to applicable access standards.

Overall Prioritization Criteria according to programmatic functions:

- Importance of the program function
- Frequency of Use
- Program location and relation to other programmatic functions
- Future Projects

Since persons with disabilities utilize certain facilities with greater frequency than other facilities, the impact of barriers identified at those facilities was deemed to be greater. Upon compilation of the survey results, prioritization criteria were determined for barriers identified in the survey and additional information was obtained to determine a final level of prioritization.

Prioritization Criteria according to barrier location:

Priority can be further divided within any one facility depending on the function of the area within the facility being surveyed. Typically, these areas are divided into 4 general priorities.

The prioritization criteria can be used to sort the access barriers identified in the surveys and create a schedule that order barrier mitigation work starting from barriers of highest importance to barriers of least importance.

SEE Appendix F: Prioritization Criteria for Barrier Mitigation – Facilities

Additional Consideration: Age of the Facility

The age of the facility can also determine the City's obligations to meet ADA compliance. Facilities built before September 15, 2010 are obligated to be in compliance with the 1991 ADAAG, barring that the building has not gone through major reconstruction or alteration henceforth that date. The facility will also be required to comply with the applicable California Building Codes (CBC) at the time of construction.

If a facility was constructed or altered between the transition period of September 15, 2010 through March 15, 2012, an option of choosing either the 1991 ADA or 2010 ADA Standards were allowed.

Facilities built after March 15, 2012 are required to meet the updated 2010 ADA Standards as well as the California Building Code (CBC) at time of construction.

The caveat being that crucial program functions and services must be provided in accessible locations.

Compliance Date for New Construction or Alterations	Applicable Standards
Before September 15, 2010	1991 Standards or UFAS
On or after September 15, 2010, and before March 15, 2012	1991 Standards, UFAS, or 2010 Standards
On or after March 15, 2012	2010 Standards

OVERVIEW: ACCESS COMPLIANCE SURVEYS OF THE PUBLIC RIGHTS-OF-WAY

Barden v. City of Sacramento, 292 F. 3d 1073 established that sidewalks and intersections constitute a service, program, or activity provided by a City, therefore they are subject to accessibility regulations and should be addressed as part of the City's ADA Transition Plan.

Four different features provided in the PROW were surveyed, including sidewalks, curb ramps, pedestrian signals and bus stops. Curb ramps, pedestrian signals and bus stops were surveyed using a data collection checklist, based on Accessibility Standards in the California Building Standards Code (CBC), Americans with Disability Act (ADA), Manual on Uniform Traffic Control Devices (MUTCD) and US Department of Transportation (USDOT) requirements as well as Public Rights-of-Way Accessibility Guidelines (PROWAG) recommendations. Traditional measuring and smart-level equipment were used to collect measurements for these surveys. Sidewalks were surveyed using sidewalk profilers that were developed for the Federal Highway Administration (FHWA) and adapted for sidewalk ADA surveys. The device captures information on slopes, and surface variations and identifies deviations from the required ADA standards and other applicable requirements.

The access compliance surveys of the Public Rights-of-Way (PROW), along with the surveys of City owned and leased facilities, completely fulfill the first two requirements for an ADA Transition Plan. As a part of this effort, approximately 54 miles of sidewalk and gaps, 1138 curb ramps and 31 pedestrian signals were surveyed for access compliance and that the financial cost to mitigate all barriers identified in the surveys to be approximately $105 million.

Features	Total Number Surveyed	Number ADA Compliant	Total Cost Estimate ($)
Sidewalks	54 miles	19.36 miles	$99,502,998.38
Curb Ramps	1138 curb ramps	247 curb ramps	$5,136,250
Pedestrian Signals	31 pedestrian signals	0 pedestrian signals	$188,490
TOTAL			**$104,827,738**

The information obtained from the surveys of the PROW is maintained on a geographic information system (GIS) database.

Access Compliance Survey Reports are contained in Section II: Appendix.

SEE Appendix B: Access Compliance Survey Report of Sidewalks

SEE Appendix C: Access Compliance Survey Report of Curb Ramps

SEE Appendix D: Access Compliance Survey Report of Pedestrian Signals

Prioritization Criteria for Barrier Mitigation – Public Rights-of-Way

The third requirement of an ADA Transition Plan is to create a schedule that the City shall follow which addresses the order in which barriers within each feature shall be mitigated. This schedule shall be a public document and shall be made available for public inspection, maintained, and updated for the duration of the Transition Planning period. The maintaining and updating of this document shall mark the City's good-faith efforts in transitioning from a state of noncompliance to compliance regarding accessibility.

The difficulty and complexity of creating a schedule is recognized. Therefore, to provide a methodology for creating a schedule, like City owned and leased facilities, a prioritization criterion was formed, catered to the in-depth information that is provided utilizing GIS.

The relative importance of each barrier, according to its impact upon the disabled population was taken into account when developing the prioritization criteria for barrier mitigation.

Overall Prioritization Criteria according to programmatic functions:

- Importance of the program function
- Frequency of Use
- Program location and relation to other programmatic functions

Since persons with disabilities utilize certain facilities with greater frequency than other facilities, the impact of barriers identified at those facilities was deemed to be greater. Upon compilation of the survey results, prioritization criteria was determined for barriers identified in the survey and additional information was obtained to determine a final level of prioritization.

The general policy includes the continuous effort of providing connection to existing pedestrian facilities where sidewalk segments are missing.

Prioritization Criteria for PROW according to barrier location:

- Government Services
- City Attractors (City Owned/Leased Facilities)
- Schools
- Parks
- Transit Stops/Centers
- Population Density
- Streets (Arterials, Collectors)

The prioritization criteria developed for the PROW rates the relative importance of each barrier based on a combination of rating the activity occurring at the barrier's location, or "Activity Score", as well as rating the severity from which each feature deviates from current State and Federal standards, or "Barrier Score". Each score is rated on a scale of 0 to 100, with 0 being the lowest, and 100 being the highest.

The combination of both the "Activity Score" and "Barrier Score" creates an overall "Priority Score" that can be used to sort features identified in the surveys and create a schedule that orders barrier mitigation work starting from features of highest priority to features of lowest priority. The "Priority Score" is rated on a scale of 0 to 200, with 0 being the lowest priority, and 200 being the highest priority.

SEE Appendix E: Prioritization Criteria for Barrier Mitigation – Public Rights-of-Way

Additional Consideration: Age of PROW

The age of the PROW element (i.e. sidewalk, curb ramp, pedestrian signal, or bus stop) can also determine the City's obligations to meet ADA compliance. PROW elements built before September 15, 2010 are obligated to be in compliance with the 1991 ADAAG, barring that the element has not gone through major reconstruction or alteration henceforth that date. The element will also be required to comply with the applicable California Building Codes (CBC) at the time of construction.

If a PROW element was constructed or altered between the transition period of September 15, 2010 through March 15, 2012, an option of choosing either the 1991 ADA or 2010 ADA Standards were allowed.

PROW elements built after March 15, 2012 are required to meet the updated 2010 ADA Standards as well as the California Building Code (CBC) at time of construction.

The caveat being that crucial program functions and services must be provided in accessible locations.

Compliance Date for New Construction or Alterations	Applicable Standards
Before September 15, 2010	1991 Standards or UFAS
On or after September 15, 2010, and before March 15, 2012	1991 Standards, UFAS, or 2010 Standards
On or after March 15, 2012	2010 Standards

OFFICIAL(S) RESPONSIBLE

The ADA requires that an official be identified as responsible for the implementation of the Entity's plan.

It is the US DOJ's view that compliance with 28 CFR 35.150(a), like compliance with the corresponding provisions of the section 504 regulations for public programs, would in most cases not result in undue financial and administrative burdens on a typical City. In determining undue financial and administrative burdens, all City resources available for use in the funding and operation of City services, programs and activities would need to be considered.

The burden of proving that compliance with paragraph (a) of 28 CFR 35.150 would either fundamentally alter the nature of a service, program, or activity OR would result in undue financial and administrative burdens rests with the City. The decision that compliance would result in such alteration and/or burden must be made by the head of the public entity or their designee and must be accompanied by a written statement of the reasons for reaching that conclusion.

While the US DOJ has acknowledged the difficulty/complexity of not only making such a determination, but also identifying the official responsible to make this decision/determination, the department's intention is clear in that the determination must be made by a high level official, no lower than a Department head, having budgetary authority and responsibility for making spending decisions.

The Official Responsible for the implementation should be able to seek/acquire funding for ADA barrier removal work over the City's Transition Planning period. In most cities, it is the Manager of EEO/Disability Compliance who can effectively control the City's budget line item – "ADA Transition Planning budget". As such, the City of Chowchilla will designate the Manager of EEO/Disability Compliance as the Official Responsible for the implementation of its ADA Transition Plan. They can be contacted as follows.

Jason Rogers

Director of Public Works

Public Works Department

130 S. 2nd Street

Chowchilla, CA 93610

Phone: 559.665.8615

FAX: 559.665.8629

http://cityofchowchilla.org/

California Relay TTY/VCO/HCO: 711

Typically, the responsibility of making any particular City program, service or activity accessible to all persons, regardless of ability, rests with the official who controls the operating funds for that particular program, service or activity. To this end, the task of seeking/getting approval for funds from the governing body to make the said program accessible lies with the official responsible for the program.

Indication of the official(s) responsible for implementation of the plan fulfills the final requirement of a Transition Plan.

In support of monitoring and tracking the Transition Plan, the following are officials identified as those responsible for the implementation of the plan at facilities under their departmental jurisdiction.

Rod Pruett **City Administrator** **Administration** **130 S. 2nd Street** **Chowchilla, CA 93610** **Phone: 559.665.8615** **FAX: 559.665.8629**	**Fred Gaumnitz** **Fire Battalion Chief** **Fire Department** **240 N First Street** **Chowchilla, CA 93610** **Phone: (559) 665-8626** **Fax: (559) 665-8627**
David Riviere **Chief of Police** **Police Department** **122 Trinity Avenue** **Chowchilla, CA 93610** **Phone: (559) 665-8600**	

PUBLIC INPUT

Per 28 Code of Federal Regulations, Part 35; Subpart D – Program Accessibility; §35.150 – Existing Facilities; (d) Transition Plan (1): The City shall provide an opportunity to interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the development of the ADA Self-Evaluation and Transition Plan by submitting comments.

In order to satisfy this requirement and to gain the perspective of persons with disabilities, a public vetting was held by the City on September 8, 2020, where members of the public were invited to comment on and participate in the City's Draft ADA Self-Evaluation & Transition Plan.

SEE Appendix I: Public Comments

TRANSITION PLAN IMPLEMENTATION

The document should be maintained and updated for the duration of the Transition Planning period and a copy of the Transition Plan shall be made available for public inspection.

The final product is a working document to be modified as barriers are removed or alterations are made, open to modification throughout the transition period. The Official(s) responsible and project managers overseeing the barrier-removal projects will document all such ADA improvements/upgrades. Also as part of this process, technical infeasibility, if any, to meet necessary accessibility compliance will be documented and filed for the City's records by the Engineer-of-Record on the said project. It is also recommended to provide accessibility site audits (inspections) of on-going projects as part of the project close-out/certification. This documentation and verification of barrier-mitigation will be integrated into the City's ADA Transition Plan on a regular basis to ensure that barriers are "checked-off" and the Plan is current with a record of barrier-mitigation work. Annual reports of barrier-mitigation work may also be provided to the City's Board of Supervisors.

Maintenance of Accessible Features

The Maintenance of accessible features is mandated by State and Federal Regulations and is an integral part of the City's plan to transition into a more accessible destination. Both, Chapter 28 Code of Federal Regulation, Part 35, Section 35.133 as well as the California Building Code section 1101B.3 – Maintenance of accessible features, state:

1. A public accommodation shall maintain in operable working condition those features of facilities and equipment that are required to be accessible to and usable by persons with disabilities.

2. This section does not prohibit isolated or temporary interruptions in service or access due to maintenance or repairs.

Both these sections provide that a public entity shall maintain in operable working condition those features of facilities and equipment that are required to be accessible to and usable by persons with disabilities. They require that, to the maximum extent feasible, facilities must be accessible to, and usable by, individuals with disabilities. These sections recognize that it is not sufficient to provide features such as accessible routes, ramps, or elevators, if those features are not maintained in a manner that enables individuals with disabilities to use them. Inoperable elevators, are neither "accessible to" nor "usable by" individuals with disabilities.

It is, of course, impossible to guarantee that mechanical devices will never fail to operate. As such, the 2nd paragraph provides that this section does not prohibit isolated or temporary interruptions in service or access due to maintenance or repairs. This paragraph is intended to clarify that temporary obstructions or isolated instances of mechanical failure would not be considered violations of the ADA or this part. However, allowing obstructions or "out of service" equipment to persist beyond a reasonable period of time would violate this part, as would repeated mechanical failures due to improper or inadequate maintenance. Failure of the public entity to arrange prompt repair of inoperable elevators or other equipment intended to provide access would also violate this part.

A City-wide formal policy specifically addressing the legal requirements (28CFR Part 35.133 & CBC1101B.3) of maintaining accessible features would be of long-term benefit to the City. When, over time, an accessible feature fails, institutionalizing organizational commitments towards protocols and maintenance ensures an appropriate action is taken.

Implementation Policies

The City of Chowchilla proposes the following implementation policies for transition of its facilities and public rights-of-way into compliance with the ADA.

1) The City will continue to seek out sources of funding, including funds associated with the City's Capital Improvement Project funds, and other Tenant Improvement projects.

2) The City will continue to seek out a variety of grants to assist in ADA mitigation each year.

3) Where projects in the City's pipeline are identified whose scope of work overlaps with the location of access barriers identified in the Access Compliance Survey, the City shall ensure that the project incorporate the mitigation of the corresponding barriers. The project and completion of mitigation work shall be appropriately documented in the corresponding inventory.

4) In addition to the improvements to facilities, curb ramps and traffic signals, the City will continue to perform work on an ongoing, routine basis related to maintaining the ramps, sidewalks, bridges, etc. so they are in good condition. Many of these maintenance tasks are beneficial to the disabled population, for example, by reducing trip hazards and keeping sufficient accessible space along sidewalks. Examples of work undertaken include trimming shrubbery; repairing or

grinding sidewalks; ramping raised sidewalks; filling holes; weeding and cleanup of debris; sweeping; repairing tree grates; inspections for needed sidewalk repairs.

Existing Policies and/or Standards:

Any existing policies and/or standards that the City currently has should be listed here.

Funding Sources & Projects

Project	Year of Completion	Total Project Cost ($)

Capital improvement projects that overlap with ADA barriers recorded in the Transition Plan should be listed in the table above. This table may also be removed if the City does not want to show the information displayed this way.

NOTICE OF COMPLIANCE UNDER ADA & CALIFORNIA STATE LAW

In accordance with the requirements of Title II of the Americans with Disabilities Act (ADA) of 1990, the Americans with Disabilities Amendments Act of 2008, the Fair Employment & Housing Act (FEHA), California Government Code Section 11135 and other applicable codes, the City does not discriminate against individuals on the basis of disability in its services, programs or activities.

Employment: The City does not discriminate on the basis of disability in its hiring or employment practices and will comply with the Fair Employment and Housing Act, as well as Title I of the ADA, including the regulations promulgated by the U.S. Equal Employment Opportunity Commission (EEOC), including the requirement to provide reasonable accommodations.

Effective Communication: The City will generally, upon request, provide appropriate aids and services leading to effective communication for qualified person(s) with disabilities, including sign language interpreters, documents in Braille and other alternate formats to ensure information and communication is accessible to people who have speech, hearing, vision, or cognitive impairments so they can participate equally in the programs, services and activities.

Modification to Policies and Procedures: The City will make reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to participate in all of its programs, services and activities. *For example, individuals with service animals behaving within applicable standards are welcome in offices and City facilities, even when pets are generally prohibited.*

Anyone who requires auxiliary aids and services for effective communication, or a modification of policies or procedures to participate in a program, service or activity in the City should communicate with the responsible Department contact as soon as possible, but no later than **48 hours** before the scheduled event.

Neither the ADA, nor State law requires the City to take action that would fundamentally alter the nature of its programs, activities or services or impose an undue financial or administrative burden. Complaints that a program, activity or service of the City is not accessible should be directed to the **ADA Coordinator:**

Jason Rogers

Director of Public Works

Public Works Department

130 S. 2nd Street

Chowchilla, CA 93610

Phone: 559.665.8615

FAX: 559.665.8629

http://cityofchowchilla.org/

California Relay TTY/VCO/HCO: 711

The City does not place a surcharge on a particular individual with a disability or a group of individuals with disabilities to cover the cost of providing auxiliary aids and services or making a reasonable modification to a policy to create access.

ADA GRIEVANCE PROCEDURE

City of Chowchilla ADA Grievance Procedure

Grievance Procedure under ADA and California State Disability Rights Laws

This grievance procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 ("ADA"), the Americans with Disabilities Amendments Act (ADAAA) and California State law. It may be used by anyone wishing to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by the City of Chowchilla. The City's Disability Discrimination Policy governs employment-related complaints of disability discrimination.

The complaint should be in writing and contain information about the alleged discrimination such as name, address, phone number of the complainant and location, date and a description of the problem(s). Alternative means of filing a complaint, such as personal interviews or tape recording the complaint, are available to people with disabilities upon request.

The complaint should be submitted by the grievant and/or their designee as soon as possible, but no later than 60 calendar days after the alleged violation to:

Jason Rogers

Director of Public Works

Public Works Department

130 S. 2nd Street

Chowchilla, CA 93610

Phone: 559.665.8615

FAX: 559.665.8629

http://cityofchowchilla.org/

California Relay TTY/VCO/HCO: 711

Within 15 calendar days after receipt of the complaint, the ADA Coordinator or his/her designee will schedule a meeting with the complainant to discuss the complaint and possible resolutions. After an investigation and review the ADA Coordinator will respond in writing, and, where appropriate, in a format accessible to the complainant. The response will explain the City position on the issue and offer options for substantive resolution of the complaint.

If the response by the ADA Coordinator does not satisfactorily resolve the issue, the complainant and/or their designee may appeal the decision within 15 calendar days after receipt of the response to the City Administrator.

After receiving the appeal, the City Administrator or their designee will review the appeal and the ADA Coordinator finding. Within a reasonable period, after a review, the City

Administrator or their designee will respond in writing, and, where appropriate in a format that is accessible to the complainant, with a final resolution to the complaint.

All written complaints received by **Jason Rogers** or their designee, appeals to the City Administrator or their designee, and responses from these two offices will be retained by the City for at least three years.

FACILITIES LIST

Facility#:	Facility:	Address:
101	Senior Citizen Center	820 Robertson Blvd
102	County Social Services Department	125 S 2nd Street
103	Fire House	240 N 1st Street
104	Public Works/Corp Yard	360 N 1st Street
105	Police Department	122 Trinity Avenue
106	City Hall	130 S 2nd Street
107	RC Wisener Park	130 S 2nd Street
108	Veterans Memorial Park	600 W Robertson Blvd
109	Edward Ray Park	625 N 15th Street

NAVIGATION & LEGEND

NAVIGATION

1. **Item Number:** Number corresponding to the number on the Barrier Location Map which identifies the general location of the identified barriers.
2. **Item Name:** Describes the barrier location / item title (e.g.: parking lot, room name).
3. **As-Built Description:** Description of identified barrier based on applicable accessibility codes.
4. **As-Built:** Existing conditions / dimensions.
5. **Proposed Solution:** Description of steps necessary to remove barrier and, if applicable, an interim or alternative solution.
6. **Notes:** Additional notes pertaining to barrier.
7. **Codes / Info:**
   - PCODE: specifies the relevant SSA database code. Database code plus suffix:
   - REF: data shown for reference only [scope of work related to or covered by other item].
   - NT: non-typical problem or solution.
   - ADAAG, ADA 2010, PRoW and CBC 2019: The Federal Standard for accessibility adopted by the Department of Justice.
8. **Qty:** Number of units required.
9. **Type:** Unit of measurement used to compute conceptual cost estimate. LF=linear feet; SF=square feet; JOB=lump sum.
10. **Cost:** Estimated conceptual cost of specific solution per one unit.
11. **Total:** Total estimated conceptual cost for removing identified barrier (multiplied Qty by Cost).
12. **ID No:** Specifies Facility Number, Area Number: 1=Interior / 0=Exterior, and Part / Floor Number.

City of Chowchilla — Access Compliance Survey Report - Sidewalks — Chowchilla

Funding Source: TBD — Year to be Completed: TBD

Street Side	Run ID	Survey Street Name	Starting Street Name	End Street Name	Priority
NE	1908200948	CHOWCHILLA BLVD	ROBERTSON BLVD	SIDEWALK ENDS	TBD

ID	Dist. from Corner	Barrier Type	As-is Measurement/Notes	Sidewalk Width	Qty	Unit	Cost	Total
234	0.0 to 19.2 feet	Cross Slope (PAR)	2.0-3.0%	8 ft	144	SF	$120	$17,280
1	0.8 to 1.8 feet	Continuous Width		8 ft	8	SF	$120	$900
46978	4.0 to 5.0 feet	Vertical Change	-.43	8 ft	8	REF		
57699	13.8 to 61.6 feet	Driveway				REF		
52326	17.0 to 18.0 feet	Vertical Change	-.28	8 ft	8	REF		
237	21.2 to 59.7 feet	Cross Slope (Driveway)	7.0-8.0%	8 ft	289	SF	$40	$11,550
46526	39.9 to 40.9 feet	Vertical Change	-.45	8 ft	8	REF		
39961	57.5 to 59.4 feet	Running Slope	5.0-6.0%	8 ft	14	REF		
240	62.7 to 108.0 feet	Cross Slope (PAR)	2.0-3.0%	8 ft	340	SF	$120	$40,770

1. Street Side: Corresponds to the side of the street surveyed:
   - N, S, E and W.
2. Dist. from Corner: The location of the identified barrier, measured in feet from the intersection/starting street.
3. Survey Street: Name of arterial/primary Street for which barriers are being surveyed.
4. Barrier Type: Type of Barrier recorded.
5. Starting Street: Name of the intersecting starting street from which barrier locations are being measured.
6. Measurement: Existing condition/dimension.
7. Sidewalk Width: Width of the sidewalk measured in feet.
8. Qty: Number of solutions required.
9. End Street: Name of the intersecting ending street from which barrier locations are being measured.
10. Unit: Unit of measurement used to compute estimate. LF=linear feet; SF=square feet; JOB=lump sum; REF=reference
11. Cost: Estimated cost of specific solution per one unit (The final cost of barrier removal may exceed this estimate based on the year of mitigation, design approach, and chosen method of mitigation.
12. Total: Total estimated cost for removing identified barrier (multiplied Qty by Cost).
13. Priority: Priority number assigned to specific barrier based on priorization criteria which include: expected frequency of use and severity of the barrier. Measureed on a scale of 0 to 200, with 200 being the highest priority and 0 being the least.
